Hi folks,

I hope I'm doing this right! The assignment was to post some things that I can teach I think.

Well let's see, what are my interests and what do I know well enough that I can teach it? Here goes...

I can teach you how to make a mean sushi roll -- conventional roll with the seaweed on the outside AND more exciting an inside-out roll with the seaweed on the inside!

I can get you started on learning how to play the violin. I can teach you some basic fingering and bowing skills.

I can teach you about (aboot) canadian culture.

I can teach you a bit about korean culture.

I can teach you how to repot a plant.

I can teach you a bit about orchids.

I can teach you a bit about how gasoline is manufactured.

Hei-Jung.
