The "4 P's" of marketing

What are the "4 P's" of marketing?

34/38 answered correctly

- | | | | |
|----|--------------|-----------------------------------|-----------|
| A) | \$5.00
p% | a deck of MIT playing cards
q% | |
| B) | \$5.00
g% | a deck of MIT playing cards
h% | “X”
i% |

Assume that $q - p = 20\%$, and that X is a variable amount of money.

Plot $(h - g)$ as a function of X . (5 pts)

(Hint: this problem is very difficult)
