86 Frankie and Davey leap onto train	0 strong front light, reddish purple cyc
86 links after previous cue	2 radio mike special on Davie, a little down and back light around him
	3 blackout
87 "God bless."	

Note: I didn't put the cyc in a lot of these cues. If I were doing this for real, I would play with the cyc a lot more. It's hard for me to know what colors in the cyc would look good when without actually seeing the play and the lights.

L. daug - this is great!

Very simple + descriptive and would be a great document to take into the theatre w/you to write the actual cues.

I accept that!
