

**Homework 21M 734**  
**Due 9/11/03**

**Light Library**

Find 3 pictures in which THE LIGHTING plays an integral part of the story- magazines are a great source, but they can also be high quality downloaded images, or from books, and briefly describe the mood & properties of each image. Use a lot of adjectives, and think in terms of intensity, color, form, direction, diffusion, and overall quality. We will refer to these images at various times during the coming weeks, to assist us in describing looks we hope to create. Attach these photos directly into your journal/sketch book.

Try and find pictures that have little or no “Photoshop” enhancement if possible.
