

## Questions on West, 'Words that silence? Freedom of expression and racist hate Speech'

1. What are West's 'minimal conditions' for free speech? Does she think that the minimal conditions are *sufficient* for free speech, *necessary* for free speech, both, or neither?
2. What is West's 'Meaning Obliterator'? What point does she use it to make?
3. What is West's 'input buffer'? What point does she use it to make?
4. What is racist hate speech, as West explains it? If her argument succeeds, would it show that other kinds of hate speech might undermine free speech? If so, what kinds?
