

Charisse Massay

I am a filmmaker,
and I smoke marijuana.

Creativity, originality, innovation and dedication defines an amazing filmmaker. Although I do feel that marijuana has effected my work in ways that I cannot begin to describe, it has never been the effect has never been negative.

I am a pre-school teacher,
and I smoke marijuana.

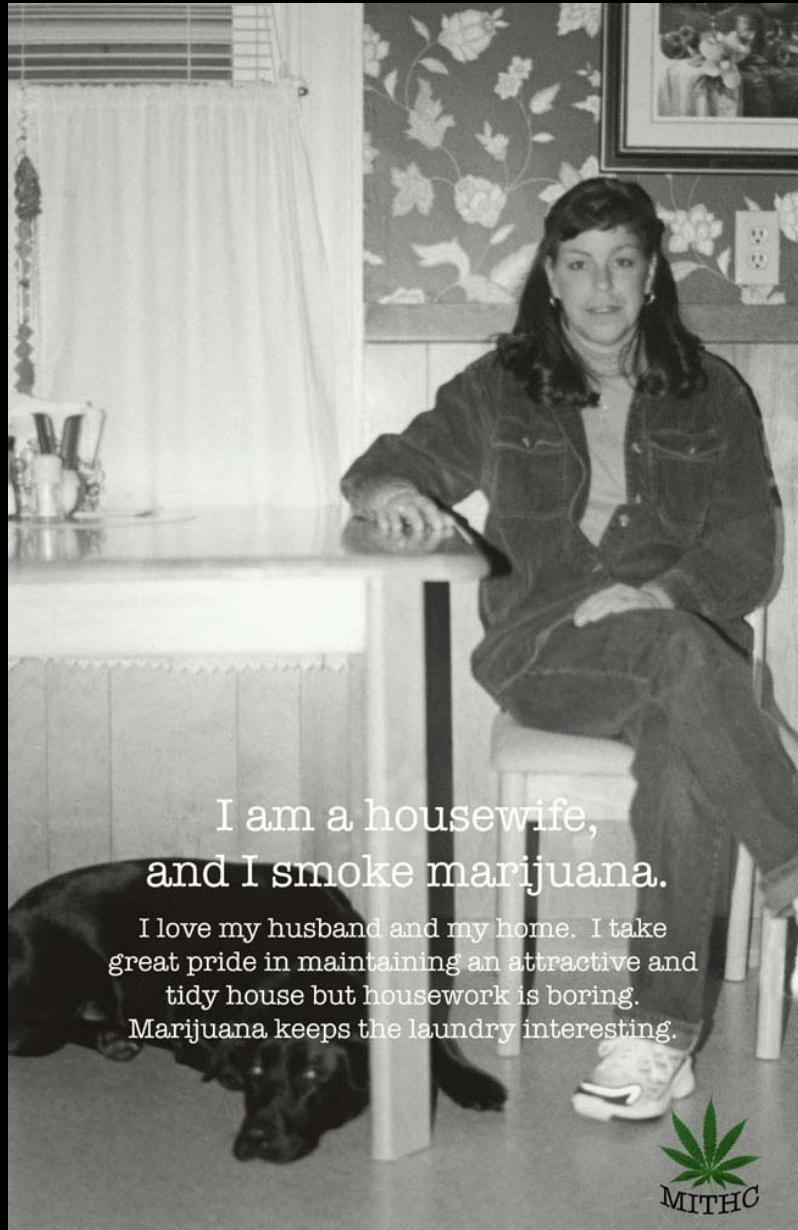

After chasing four-year-olds around, relaxation is vital. My marijuana consumption is minimal and on my own time. It inspires me to create new games and stories to entertain my students.

I am a drag queen,
and I smoke
marijuana.

As a child, I never cared what
other people thought of me.
Throughout my life, I have made
my own decisions without
considering the opinions of others.
Although some may disapprove
of my lifestyle choices,
I am still fabulous.

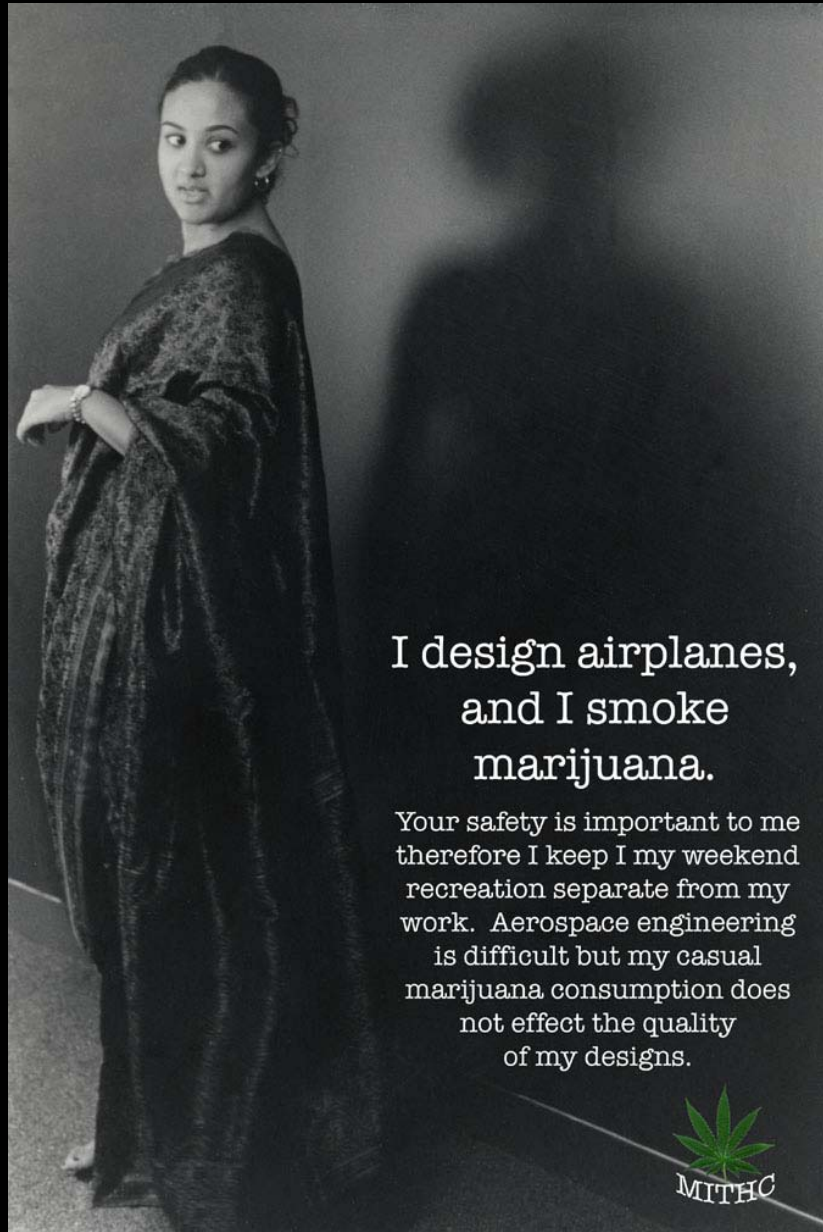

I am a housewife,
and I smoke marijuana.

I love my husband and my home. I take
great pride in maintaining an attractive and
tidy house but housework is boring.
Marijuana keeps the laundry interesting.

I design airplanes,
and I smoke
marijuana.

Your safety is important to me
therefore I keep I my weekend
recreation separate from my
work. Aerospace engineering
is difficult but my casual
marijuana consumption does
not effect the quality
of my designs.
