**Section 2.9 Exercises: the downstepped High phrase accent (!H-)**

A: listening exercises:

1. ex9a1laters: this file contains several speakers producing the word "later." All but one have the !H-L% phrase accent boundary tone combination. Can you pick which?

B: labelling exercises:

The following files have TextGrids with words only. Answer keys are provided.

1. ex9b1cigar
2. ex9b2cigar2
3. ex9b3goodbye1
4. ex9b4goodbye2
5. ex9b5later
6. ex9b6frozen
7. ex9b7anna

C: Further exercises

1. Produce and record (and try to label): Try the calling contour on a variety of names of differing lengths (and stress patterns), such as:

    Nel
    Nellie
    Melanie
    Melinda
    Annabel
    Marie
    Abercrombie

2. Produce and record (and try to label): Try saying different greetings. Do you produce the !H- phrase accent on any of them?

    Hello
    good-bye
    bye
    later
    see ya later
    hi
    hey there
