YULIYA KLOCHAN: I'm doing very well. I'm very excited.

INTERVIEWER: Are you excited, nervous?

YULIYA KLOCHAN: Yeah, I'm very excited. It's my first red carpet premier, which is what I think it is.

INTERVIEWER: What was the hardest thing about this class?

YULIYA KLOCHAN: The beginning was difficult because there was a lot of work you had to do, and for me it kind of made me realize what I know and don't know. So just getting rid of all the misconceptions I had about filmmaking, script writing, and all else was difficult.

INTERVIEWER: Do you feel like you want to keep doing this, or are you going to try to take the things in the class and apply it to non-video stuff?

YULIYA KLOCHAN: I'm definitely interested in educational resources. So video, I think, is one of the best mediums to convey excitement about science and mathematics. So this is definitely something that will be important in life.

INTERVIEWER: [INAUDIBLE]. [LAUGHTER] How would you describe this class to someone who's never taken it before?

YULIYA KLOCHAN: You have a month to learn how to make an educational video, and then you get to write, produce, direct, and create it all.

INTERVIEWER: Any words of advice for people who have never done it before?

YULIYA KLOCHAN: Don't think it's going to be easy. Just always think that it's going to be harder than you expected. And put work into it.

INTERVIEWER: Thank you very much.

YULIYA KLOCHAN: Thank you.
