Sponsored Links

Google AdWords and other similar systems
Used to be called “sponsored links”. Consumer groups complained that it was too opaque. Now typically called “ads”.

Organic or algorithmic search results

Not a fixed number, varies w/ search term
Bing does the same thing.
Most Expensive Keywords

No ads. Most people searching for “Hatch Shell” are not interested in ads.
Bing has ads. Organic search results look good though. So it doesn’t do quality-weighing as well.
