IAP Group Presentations

Different groups presented on what they are planning to do in their countries for MITs January IAP.

Some groups used props, and one group member (from Zambia) brought in food to share with everyone.

Projects students plan to work on are in the following range:

Water & Sanitation
Education
Air Quality Testing
Stove Research
Solar Lanterns
Solar Dehydrators
Shea Oil Press
Salt Water Batteries
Charcoal Demonstrations
EC.701J / 11.025J / 11.472J D-Lab I: Development
