1. Solutions to exercises for last week

2. *Think*…*might* exercise

(1) Sue thinks it might be raining.

(2) Joe thinks that Bush might be president.

- **Truth Conditions of (1)-(2)**
  - Entailments?
  - What possibilities does Sue / Joe entertain?

- **Compositional semantics**
  - \[ [X \text{ thinks that } \text{ might } \phi]_w = \]
  - \[ [\text{think-might}]_w = \]
  - Accessibility relation?

- **Advanced steps**
  Next steps: How might we try to tease apart the contribution of *think* and the contribution of *might*?
  - \[ [\text{might } \phi]_w = \]
  Would we need to revise *think*?
  - \[ [X \text{ thinks } \phi] = \]
