
Fish Farm Fill

10/9/03

Fish Farm Fill

- Fish Farm Fill is an aquaculture venture developing fish farms in Asia.
 - We solve the problem of food shortage using our unique technology of fish farming.
 - Our team includes
 - Marc Jin: Product Design Expert, Ford Corporation
 - Jason Liu: Sales and Marketing Expert, Procter & Gamble
 - John Ma: Finance Expert, Goldman Sachs
 - Alberto Osio: Food Industry Expert, Hormel
 - Unlike traditional fish farms, we offer new methods for farming tilapia, the 'chicken of the sea'

Fish Farm Fill

- Aquaculture promise:
 - Current 'fish catches' declining
 - In next 30 years, new center of world's marine produce
 - Little regulation
 - China is the world's largest fish farm industry
 - Tilapia, the new 'chicken' of the sea

Temple

Temple

- Temple is a home mortgage venture developing mortgage innovations for developing nations
 - We enable new citizens to be new home owners using our unique mortgage innovations.
 - Our team includes
 - Marc Jin: Product Design Expert, Ford
 - Jason Liu: Sales and Marketing Expert, Procter & Gamble
 - John Ma: Finance Expert, Goldman Sachs
 - Alberto Osio: Food Industry Expert, Hormel
 - We solve the issue of 100% capital investment using our unique mortgage innovations, making home ownership possible

Mortgage Innovation

- Home ownership in developing nations is a primary concern:
 - Developing nations have a new population ready to own homes
 - Most homes must be purchased with 100% capital
 - Mortgage innovation is a growing demand
