Homework  21M 734  
Due 9/16/03

Emotional Response

Listen to the piece of music several times (at least once with your eyes closed). See it in your mind’s eye. Feel it. Live it.

Then, choosing any media you wish, create a single artistic statement: collage, drawing, painting, sculpture etc. that encapsulates your emotional response to the music.

This is NOT a light design, a storyboard, or an assignment that has anything to do with a stage, or cues. This is an ABSTRACT exercise that draws on your personal emotional reaction to the chosen music. Try very hard not to be too literal! It has nothing to do with artistic ability, and everything to do with expressing your gut feelings.
