- Presentations on Leadership Effectiveness
- Presentation of student papers
- Critique of course

Read:

For the 5th class, the organizing principle will be geography. Each team will give a presentation on what constitutes effective leadership in its region. The audience for this presentation are the ex-pats coming to your region into leadership roles. Your job is to give them guidelines to help them be successful in their roles.

Time permitting, each team (or person) will explain their paper topic and summarize their key findings.

Papers are due to me by 4pm on the last day of class.
