Copenhagen Preparation

Exercise 1: Interviewing

If you were able to interview someone, tell about your experience. If you haven't yet interviewed anyone, use these questions to help you plan out your interview experience. The questions are meant to provoke writing, not to constrain the writing process.

Who did you interview?
What is this person's background?
What three new things did you learn? Explain in detail.
How did you record the interview?
What did you wish you had asked?
Who will you interview next and why?
What will you do differently?

Exercise 2: Copenhagen Study Plan

Develop a plan for your individual study days while you are in Denmark:

Where do you need to be?
What places do you need to visit?
Who do you need to meet with?
How much time do you need?
What materials do you need to bring to record your research?
